

BERGHÖFER IT CONSULTING

YOUR REGIONAL
IT EXPERTS

WHO WE ARE

Berghöfer IT consulting was founded in Neuss in 1982 and offers regional services in the IT-business. Key aspects of our work are consulting, service and support.

WE ARE EXPERTS IN

- IT consulting and support
- hardware
- software
- network technology
- mobile communication
- monitoring systems

→ we offer all IT services from one source, perfectly inter-coordinated

YOUR BENEFITS

- three decades of experience in information and communication technology
- professional, personal and individual consulting
- low administration efforts, high flexibility and fast reaction rate
- as independent company we are not tied to any external contractors or suppliers
- we are working in a cost-effective manner as we take your existing hardware into consideration
